Standards-Based Connections Reading for grade 2 offers focused skill practice in reading comprehension. A skill assessment will point out students' learning gaps. This allows teachers to choose appropriate student pages for individualized remediation. The student pages emphasize five important reading comprehension skills: summarizing, inferring, story elements, comparing and contrasting, and cause and effect. The book includes high-interest fiction and nonfiction, with texts about moving day, volcanoes, Laura Ingalls Wilder, planets, poetry, and more. --Each 96-page book in the Standards-Based Connections Reading series includes a skill assessment, an assessment analysis, targeted practice pages, and an answer key, making this series an ideal resource for differentiation and remediation. The skill assessments and assessment analyses help teachers determine individualized instructional needs. And, the focused, comprehensive practice pages and self-assessments guide students to reflection and exploration for deeper learning!

In *Writers Are Readers*, the mutually supportive roles of reading and writing are made visible through the idea of "flipsides;" how a reader's insights can be turned around to provide insights into his own writing, and vice versa. Lester and Reba's trademark engaging style is woven throughout chapters full of sample lessons, student writing samples, and recommended texts for maximizing the flipped concept across the year. "Leading the student to understand what he did as a reader can become a lens that brings into focus what the writer had to do before a reader ever saw the page," they write. Discover fresh new ways to turn reading strategies into writing opportunities that your students will be excited about and deeply understand.

Amazing Snakes! is the fifth title in an award-winning series of *I Can Read Books* that features photographs from the Wildlife Conservation Society (WCS), one of the world's most esteemed wildlife conservation organizations. The exceptional writing and design of the *I Can Read Books*—paired with WCS's global research and conservation efforts, educational programs, and stunning color photographs—make this a standout series for children, caregivers, and teachers!

Curriculum and Teaching Dialogue is a peer-reviewed journal sponsored by the American Association for Teaching and Curriculum. The purpose of the journal is to promote the scholarly study of teaching and curriculum. The aim is to provide readers with knowledge and strategies of teaching and curriculum that can be used in educational settings. The journal is published annually in two volumes and includes traditional research papers, conceptual essays, as well as research outtakes and book reviews. Publication in CTD is always free to authors.

This book showcases strategies which support teachers and principals as they implement high standards for students. At the same time, it demonstrates how to meet the needs of diverse learners.

A teacher presents a lesson, and at the end asks students if they understand the material. The students nod and say they get it. Later, the teacher is dismayed when many of the students fail a test on the material. Why aren't students getting it? And, just as important, why didn't the teacher recognize the problem? In *Checking for Understanding*, Douglas Fisher and Nancy Frey show how to increase students' understanding with the help of creative formative assessments. When used regularly, formative assessments enable every teacher to determine what students know and what they still need to learn. Fisher and Frey explore a variety of engaging activities that check for and increase understanding, including interactive writing, portfolios, multimedia presentations, audience response systems, and much more. This new 2nd edition of *Checking for Understanding* has been updated to reflect the latest thinking in formative assessment and to show how the concepts apply in the context of Fisher and Frey's work on gradual release of responsibility, guided instruction, formative assessment systems, data analysis, and quality instruction. Douglas Fisher and Nancy Frey are the creators of the Framework for Intentional and Targeted (FIT) Teaching™. They are also the authors of numerous ASCD books, including *The Formative Assessment Action Plan: Practical Steps to More Successful Teaching and Learning* and the best-selling *Enhancing RTI: How to Ensure Success with Effective Classroom Instruction and Intervention*.
