With the same directness that defined his career in public service, Rumsfeld's memoir is filled with details and insights about the Bush administration, 9/11, and the wars in Iraq and Afghanistan. It also features Rumsfeld's unique and often surprising observations on eight decades of history

*Known and Unknown: A Memoir*

Few Americans have spent more time near the center of power than Donald Rumsfeld, whose widely commented-on memoir offers many previously undisclosed details about his service with four U.S. presidents. We follow his rise from a middle-class childhood to the Navy to a seat in the U.S. Congress at age thirty, and his experiences there during the Vietnam War and the Civil Rights era. We also get his unique perspective as a cabinet-level member of the Nixon and Ford administrations, as CEO of two Fortune 500 companies, and as a special envoy to the Middle East for President Reagan. Rumsfeld also addresses the challenges and controversies of his time as Secretary of Defense during the 9/11 attacks by al-Qaida and the wars in Afghanistan and Iraq. He includes candid observations on the differences of views within the Pentagon and with other members of President George W. Bush's National Security Council. In a famous press briefing, Rumsfeld once said that "There are also unknown unknowns . . . things we do not know we don't know." His book makes us realize just how much we didn't know.

Visit www.rumsfeld.com for more. Discover Known and Unknown Deluxe offering an unprecedented reading experience for a memoir by a major public figure. For web-connected readers, it features more than 500 links to never-before-available original documents from Donald Rumsfeld's extensive personal archive. It includes State Department cables, correspondence, and memoranda on topics such as Vietnam, Watergate, the days following 9/11, the wars in Iraq and Afghanistan, and much more. Available in ePub and Adobe Reader. Like Donald Rumsfeld, Known and Unknown pulls no punches. With the same directness that defined his career in public service, Rumsfeld's memoir is filled with previously undisclosed details and insights about the Bush administration, 9/11, and the wars in Afghanistan and Iraq. It also features Rumsfeld's unique and often surprising observations on eight decades of history: his experiences growing up during the Depression and World War II, his time as a Naval aviator; his service in Congress starting at age 30; his cabinet level positions in the Nixon and Ford White Houses; his assignments in the Reagan administration; and his years as a successful business executive in the private sector. Rumsfeld addresses the challenges and controversies of his illustrious career, from the unseating of the entrenched House Republican leader in 1965, to helping the Ford administration steer the country away from Watergate and Vietnam, to bruising battles over transforming the military for the 21st century, to the war in Iraq, to confronting abuse at Abu Ghraib and allegations of torture at Guantanamo Bay. Along the way, he offers his plainspoken, first-hand views and often humorous and surprising anecdotes about some of the world's best known figures, from Margaret Thatcher to Saddam Hussein, from Henry Kissinger to Colin Powell, from Elvis Presley to Dick Cheney, and each American president from Dwight D. Eisenhower to George W. Bush. Rumsfeld relies not only on his memory but also on previously unreleased and recently declassified documents. Thousands of pages of documents not yet seen by the public will be made available on an accompanying website. Known and Unknown delivers both a fascinating narrative for today's readers and an unprecedented resource for tomorrow's historians. Proceeds from the sales of Known and Unknown will go to the veterans charities supported by the Rumsfeld Foundation.

A powerful memoir from the late former U.S. Secretary of Defense Donald Rumsfeld With the same directness that defined his career in public service, Rumsfeld's memoir is filled with previously undisclosed details and insights about the Bush administration, 9/11, and the wars in Afghanistan and Iraq. It also features Rumsfeld's unique and often surprising observations on eight decades of history. Rumsfeld addresses the challenges and controversies of his illustrious career, from the unseating of the entrenched House Republican leader in 1965, to helping the Ford administration steer the country away from Watergate and Vietnam, to the war in Iraq, to confronting abuse at Abu Ghraib. Along the way, he offers his plainspoken, first-hand views and often humorous and surprising anecdotes about some of the world's best-known figures, ranging from Elvis Presley to George W. Bush. Both a fascinating narrative and an unprecedented glimpse into history,Known and Unknown captures the legacy of one of the most influential men in public service.

In this eagerly anticipated memoir, former Vice President Dick Cheney delivers an unyielding portrait of American politics over nearly forty years and shares personal reflections on his role as one of the most steadfast and influential statesmen in the history of our country. The public perception of Dick Cheney has long been something of a contradiction. He has been viewed as one of the most powerful vice presidents;secretive, even mysterious, and at the same time opinionated and unflinchingly outspoken. He has been both praised and attacked by his peers, the press, and the public. Through it all, courting only the ideals that define him, he has remained true to himself, his principles, his family, and his country. Now in an enlightening and provocative memoir, a stately page-turner with flashes of surprising humor and remarkable candor, Dick Cheney takes readers through his experiences as family man, policymaker, businessman, and politician during years that shaped our collective history. Born into a family of New Deal Democrats in Lincoln, Nebraska, Cheney was the son of a father at war and a high-spirited and resilient mother. He came of age in Casper, Wyoming, playing baseball and football and, as senior class president, courting homecoming queen Lynne Vincent, whom he later married. This all-American story took an abrupt turn when he flunked out of Yale University, signed on to build power line in the West, and started living as hard as he worked. Cheney tells the story of how he got himself back on track and began an extraordinary ascent to the heights of American public life, where he would remain for nearly four decades: \* He was the youngest White House Chief of Staff, working for President Gerald Ford;the first of four chief executives he would come to know well. \* He became Congressman from Wyoming and was soon a member of the congressional leadership working closely with President Ronald Reagan. \* He became secretary of defense in the George H. W. Bush administration, overseeing America's military during Operation Desert Storm and in the historic transition at the end of the Cold War. \* He was CEO of Halliburton, a Fortune 500 company with projects and personnel around the globe. \* He became the first vice president of the United States to serve out his term of office in the twenty-first century. Working with George W. Bush from the beginning of the global war on terror, he was;and remains;an outspoken defender of taking every step necessary to defend the nation. Eyewitness to history at the highest levels, Cheney brings to life scenes from past and present. He describes driving through the White House gates on August 9, 1974, just hours after Richard Nixon resigned, to begin work on the Ford transition; and he portrays a time of national crisis a quarter century later when, on September 11, 2001, he was in the White House bunker and conveyed orders to shoot down a hijacked airliner if it would not divert. With its unique perspective on a remarkable span of American history, In My Time will enlighten. As an intimate and personal chronicle, it will surprise, move, and inspire. Dick Cheney;is an enduring political vision to be reckoned with and admired for its honesty, its wisdom, and its resonance. In My Time is truly the last word about an incredible political era, by a man who lived it and helped define it;with courage and without compromise.

The man once named one of America;s ten "toughest" CEOs by Fortune magazine offers current and future leaders practical advice on how to make their companies and organizations more effective. Throughout his distinguished career;as a naval aviator, a U.S. Congressman, a top aide to four American presidents, a high-level diplomat, a CEO of two Fortune 500 companies, and the only twice-serving Secretary of Defense in American history;Donald Rumsfeld has collected hundreds of pithy, compelling, and often humorous observations about leadership, business, and life. When President Gerald Ford ordered these aphorisms distributed to his White House staff in 1974, the collection became known as "Rumsfeld's Rules." First gathered as three-by-five cards in a shoebox and then typed up and circulated informally over the years, these eminently nonpartisan rules have amused and enlightened presidents, business executives, chiefs of staff, foreign officials, diplomats, and members of Congress. They earned praise from the Wall Street Journal as "Required reading," and from the New York Times which said: "Rumsfeld's Rules can be profitably read in any organization!The best reading, though, are his sprightly tips on inoculating oneself against that dread White House disease, the inflated ego." Distilled from a career of unusual breadth and accomplishment, and organized under practical topics like hiring people, running a meeting, and dealing with the press, Rumsfeld's Rules can benefit people at every stage in their careers and in every walk of life, from aspiring politicos and industrialists to recent college graduates, teachers, and business leaders.

Donald Rumsfeld is not just a two-time Secretary of Defence, former CEO, former White House Chief of Staff, and the most outspoken and forceful civilian military leader in recent American history. He is also, intentionally or not, a poet. At last, the ubiquitous and at times unintelligible U.S. Secretary of Defence has been deciphered by humorist Hart Seely, who found that the rambling raconteur is best understood when set in verse. Seely uncovers zen poems and lyrics, haikus and sonnets and has plucked the golden apples from 'D.H.' Rumsfeld's tree to present over 100 hilarious gems drawn from Rummy's public statements. Whether you love him or hate him, they're irresistible. As we know, There are known knowns. There are things we know we know. We also know There are known unknowns. That is to say We know there are some things We do not know. But there are also unknown unknowns, The ones we don't know we don't know.

Fear and What Follows is a riveting, unflinching account of the author's spiral into racist violence during the latter years of desegregation in 1960s Baton Rouge. About the memoir, author and editor Michael Griffith writes, "This might be a controversial book, in the best way;controversial because it speaks to real and intractable problems and speaks to them with rare bluntness." The narrative of Parrish's descent into fear and irrational behavior begins with bigotry and apocalyptic thinking in his Southern Baptist church. Living a life upon this volatile foundation of prejudice and apprehension, Parrish feels destabilized by his brother going to Vietnam, his own puberty and restlessness, serious family illness, and economic uncertainty. Then a near-fatal street fight and subsequent stalking by an older sociopath fracture what security is left, leaving him terrified and seemingly helpless. Parrish comes to believe that he can only be safe by allying himself with brute force. This brute influence is a vicious, charismatic racist. Under this bigot's terrible sway, Parrish turns to violence in the street and at school. He is even conflicted about whether he will help commit murder in order to avenge a friend. At seventeen he must reckon with all of this as his parents and neighbors grow increasingly afraid that they are "losing" their neighborhood to African Americans. Fear and What Follows is an unparalleled story of the complex roots of southern, urban, working-class racism and white flight, as well as a story of family, love, and the possibility of redemption.

From "an exceptional storyteller," Somewhere in the Unknown World is a collection of powerful stories of refugees who have found new lives in Minnesota's Twin Cities, told by the award-winning author of The Latehomecomer and The Song Poet. All over this country, there are refugees. But beyond the headlines, few know who they are, how they live, or what they have lost. Although Minnesota is not known for its diversity, the state has welcomed more refugees per capita than any other, from Syria to Bosnia, Thailand to Liberia. Now, with nativism on the rise, Kao Kalia Yang;herself a Hmong refugee;has gathered stories of the stateless who today call the Twin Cities home. Here are people who found the strength and courage to rebuild after leaving all they hold dear. Awo and her mother, who escaped from Somalia, reunite with her father on the phone every Saturday, across the span of continents and decades. Tommy, born in Minneapolis to refugees from Cambodia, cannot escape the war that his parents carry inside. As Afghani flees the reach of the Taliban, he seeks at every stop what he calls a certificate of his humanity. Mr. Truong brings pho from Vietnam to Frogtown in St. Paul, reviving a crumbling block as well as his own family. In Yang's exquisite, necessary telling,

these fourteen stories for refugee journeys restore history and humanity to America's strangers and redeem its long tradition of welcome.

Winner of 2021 An Post Irish Book Award for Nonfiction Book of the Year from the judges: "The most remarkable Irish nonfiction book I've read in the last 10 years"; "[A] book for the ages." "We Don't Know Ourselves is a feast: a deeply absorbing chronicle of the 'known and unknowable,' and of the profound transformation of a place." Patrick Radden Keefe, New York Times best-selling author of Say Nothing: A True Story of Murder and Memory in Northern Ireland A celebrated Irish writer's magisterial, brilliantly insightful chronicle of the wrenching transformations that dragged his homeland into the modern world. Fintan O'Toole was born in the year the revolution began. It was 1958, and the Irish government—in despair, because all the young people were leaving—opened the country to foreign investment and popular culture. So began a decades-long, ongoing experiment with Irish national identity. In We Don't Know Ourselves, O'Toole, one of the Anglophone world's most consummate stylists, weaves his own experiences into Irish social, cultural, and economic change, showing how Ireland, in just one lifetime, has gone from a reactionary "backwater" to an almost totally open society—perhaps the most astonishing national transformation in modern history. Born to a working-class family in the Dublin suburbs, O'Toole served as an altar boy and attended a Christian Brothers school, much as his forebears did. He was enthralled by American Westerns suddenly appearing on Irish television, which were not that far from his own experience, given that Ireland's main export was beef and it was still not unknown for herds of cattle to clatter down Dublin's streets. Yet the Westerns were a sign of what was to come. O'Toole narrates the once unthinkable collapse of the all-powerful Catholic Church, brought down by scandal and by the activism of ordinary Irish, women in particular. He relates the horrific violence of the Troubles in Northern Ireland, which led most Irish to reject violent nationalism. In O'Toole's telling, America became a lodestar, from John F. Kennedy's 1963 visit, when the soon-to-be martyred American president was welcomed as a native son, to the emergence of the Irish technology sector in the late 1990s, driven by American corporations, which set Ireland on the path toward particular disaster during the 2008 financial crisis. A remarkably compassionate yet exacting observer, O'Toole in coruscating prose captures the peculiar Irish habit of "deliberate unknowing," which allowed myths of national greatness to persist even as the foundations were crumbling. Forty years in the making, We Don't Know Ourselves is a landmark work, a memoir and a national history that ultimately reveals how the two modes are entwined for all of us.

"Virginia Booth's writing is brave, smart, and astounding. This story of healing familial wounds will reverberate forward and backward through time, strengthening her own existence and that of all her readers". - Erin Stalcup "In this unparalleled reckoning of memory and self-transformation, virginia relives her history and her truth, an unassailable journey through pain, love, and wonder. each page is an encounter with otherworldly strength, lyric incantation and a determinate manifestation that almost rivals the supernatural. The Unknown Road is our way home to and forward on from our past, finally giving us peace in the possibility of light in the broken places". - Bianca Vinas the unknown road A memoir based on personal experiences. Virginia, the main character, is a witty, hardworking over-achiever who is struggling to overcome her past family trauma and integrate healthy friendships. She is determined to make her dreams to pursue an education come true. The novel uses flashbacks to recount why Virginia is so emotionally closed off and is written to depict her complicated family dynamics, which force her out of her home at sixteen years old. Virginia silently crumbles as she tries to take on the responsibility of her multiple family members' addictions and mental health conditions. Often finding herself at a crossroads of accepting the life she was born into or abandoning it to save herself. Virginia longs for a life of travel, culture, and relationships filled with depth, and experiences filled with art and beauty. This is a story of coming of age through impossible circumstances and life coming full circle.
