The leadership and governance section includes a policy index and introduces the components and related indicators. It describes possible sources of information and available measurement strategies, and proposes core and supplemental indicators that may be used depending on the country health system attributes and needs.

Governance & Leadership | PHCPI

The chapter investigates the role of leadership in good governance and the relationship between leadership and institutions. The important question of territorial governance is also covered, as are the pressures that geography puts on leaders in all spheres of action. The main skills introduced derive from Theory U and complexity science, including: (1) “presencing” the emerging future and crystallizing a cohesive vision and strategy; (2) the ability to rehearse for diverse governance ...
