or released at high speed, driving the nail in to the material. A nailer can be used to drive fixings into a variety of materials taking almost all the work out of nailing, saving both time and effort on a job.

Nail Guns | Nailers | Power Tools | Screwfix.com

The main purpose of any nail gun is for driving nails into various materials in the quickest way possible. The other alternative is to use a hammer and nail, but this is never going to be as fast, accurate or as safe. For those who need to insert a lot of nails at once during a project or daily work a nail gun is the most effective method.
