From Colleen Hoover, the #1 New York Times bestselling author of It Ends With Us, a heart-wrenching love story that proves attraction at first sight can be messy. When Tate Collins meets airline pilot Miles Archer, she doesn't think it's love at first sight. They wouldn ' t even go so far as to consider themselves friends. The only thing Tate and Miles have in common is an undeniable mutual attraction. Once their desires are out in the open, they realize they have the perfect set-up. He doesn ' t want love, she doesn ' t have time for love, so that just leaves the sex. Their arrangement could be surprisingly seamless, as long as Tate can stick to the only two rules Miles has for her. Never ask about the past. Don ' t expect a future. They think they can handle it, but realize almost immediately they can ' t handle it at all. Hearts get infiltrated. Promises get broken. Rules get shattered. Love gets ugly.

From the bestselling author or Less Than Zero and American Psycho, The Rules of Attraction is a startlingly funny, kaleidoscopic novel about three students at a small, affluent liberal-arts college in New England with no plans for the future—or even the present—who become entangled in a curious romantic triangle. Bret Easton Ellis trains his incisive gaze on the kids at self-consciously bohemian Camden College and treats their sexual posturings and agonies with a mixture of acrid hilarity and compassion while exposing the moral vacuum at the center of their lives. Lauren changes boyfriends every time she changes majors and still pines for Victor who split for Europe months ago and she might or might not be writing anonymous love letter to ambivalent, hard-drinking Sean, a hopeless romantic who only has eyes for Lauren, even if he ends up in bed with half the campus, and Paul, Lauren's ex, forthrightly bisexual and whose passion masks a shrewd pragmatism. They waste time getting wasted, race from Thirsty Thursday Happy Hours to Dressed To Get Screwed parties to drinks at The Edge of the World or The Graveyard. The Rules of Attraction is a poignant, hilarious take on the death of romance. The basis for the major motion picture starring James Van Der Beek, Shannyn Sossamon, Jessica Biel, and Kate Bosworth.

" An engrossing tale [that] provides plenty of food for thought " (People, Best New Books pick), this playful, wise, and profoundly moving second novel from the internationally bestselling author of How Proust Can Change Your Life tracks the beautifully complicated arc of a romantic partnership. We all know the headiness and excitement of the early days of love. But what comes after? In Edinburgh, a couple, Rabih and Kirsten, fall in love. They get married, they have children—but no long-term relationship is as simple as " happily ever after. " The Course of Love explores what happens after the birth of love, what it takes to maintain, and what happens to our original ideals under the pressures of an average existence. We see, along with Rabih and Kirsten, the first flush of infatuation, the effortless of falling into romantic love, and the course of life thereafter. Intertwoven with their story and its challenges is an overlay of philosophy—an annotation and a guide to what we are reading. As The New York Times says, " The Course of Love is a return to the form that made Mr. de Botton ' s name in the mid-1990s...e love is the subject best suited to his obsessive sponhorizing, and in this novel he again shows off his ability to pin our hopes, methods, and insecurities to the page. " This is a Romantic novel in the true sense, one interested in exploring how love can survive and thrive in the long term. The result is a sensory experience—fictional, philosophical, psychological—that urges us to identify deeply with these characters and to reflect on his and her own experiences in love. Fresh, visceral, and utterly compelling, The Course of Love is a provocative and life-affirming novel for everyone who believes in love. " There ' s no writer alive like de Botton, and his latest ambitious undertaking is as enlightening and humanizing as his previous works " (Chicago Tribune).

A New York Times bestseller and enduring classic, All About Love is the acclaimed first volume in feminist icon bell hooks' "Love Song to the Nation" trilogy. All About Love reveals what causes a polarized society, and how to heal the divisions that cause suffering. Here is the truth about love, and inspiration to help us instill caring, compassion, and strength in our homes, schools, and workplaces. " The word ' love ' is most often defined as a noun, yet we would all love better if we used it as a verb. " writes bell hooks as she comes out fighting and on fire in All About Love. Here, at her most provocative and intensely personal, renowned scholar, cultural critic and feminist bell hooks offers a proactive new ethic for a society bereft with lovelessness—not the lack of romance, but the lack of care, compassion, and unity. People are divided, she declares, by society ' s failure to provide a model for learning to love. As bell hooks uses her incisive mind to explore the question " What is love? " her answers strike at both the mind and heart. Razing the cultural paradigm that the ideal love is infused with sex and desire, she provides a new path to love that is sacred, redemptive, and healing for individuals and for a nation. The Utne Reader declared bell hooks one of the " 100 Visionaries Who Can Change Your Life. " All About Love is a powerful, timely affirmation of just how profoundly her revelations can change hearts and minds for the better.

The bestselling author of The Architecture of Happiness and How Proust Can Change Your Life revisits his utterly charming debut book, Essays in Love. The narrator is smitten by Chloe on a Paris-to-London flight, and by the time they ' ve reached the luggage carousel he knows he is in love. He loves her chestnut hair, watery green eyes, the gap that makes her teeth Kantian and not Platonic, and her views on Heidegger ' s Being and Time —but he hates her taste in shoes. What makes this book extraordinary is the depth with which the emotions involved in the relationship are analysed. Love comes under the philosophical microscope. Plotting the course of their affair from the initial delirium of infatuation to the depths of suicidal despair, through a fit of anhedonia — defined in medical texts as a disease resulting from the terror brought on by the threat of utter happiness — and finally through the terrorist tactics employed when the beloved begins, inexplicably, to drift away, Essays in Love is filled with profound and witty observations on the pain and exhilaration of love. An entire chapter is devoted to the nuances and subtexts of an initial date, while another chapter mulls over the question of how and when to say " I love you. " With allusions to Aristotle, Sartre, Wittgenstein, and Groucho Marx, de Botton has plotted an imaginative and microscopically detailed romance.
