The extent to which the number of White evangelicals have declined in the United States has been laid bare in a new report by the Public Religion Research Institute's 2020 Census on American Religion.

In this luminous presentation, the Dalai Lama lays out the Middle Way - "the way of the intelligent person" who approaches all matters, including matters of faith and devotion, with the highest spirit of critical inquiry and does so without falling into the traps of fixed ideas or extreme views. With fresh emphasis, this peerless and beloved teacher links Tibetan Buddhism to its deep roots in the ancient scholastic tradition of Nalanda University and to the profound analytical teachings of the seminal Indian master Nagarjuna. As the Dalai Lama explores in depth Nagarjuna's Fundamental Stanzas on the Middle Way - a text of radical importance to the entirety of the Mahayana Buddhist tradition-he illuminates such subtle and easily misunderstood topics as the nature of self and no-self, dependent origination, and the differing roles of relative and absolute truths. This volume also includes a rich exploration of the Tibetan master Tsongkhapa's Three Principal Aspects of the Path, offering the reader an opportunity to put these matters of deepest philosophical import into direct practice. "It is vital for us to obtain genuine confidence in the nature of mind and reality, grounded in understanding and reason. What we need is a skeptical curiosity and constant inquiry, a curious mind, drawn toward all possibilities; and when we cultivate that, the desire to deeply investigate naturally arises."

For nearly 2,000 years, Nagarjuna's teachings have occupied a central position in Mahayana Buddhism. An essential part of the study and practice in the great Indian Buddhist monastic universities, these teachings were later incorporated into the Tibetan monastic programs that modeled their curricula on their Indian predecessors. In "The Middle Way, " the Dalai Lama offers a brief, brilliant, and complete presentation of the ultimate view of reality in the Mahayana tradition of Buddhism. The teachings are about the Buddhist view, yet the Dalai Lama presents them in a way that allows any interested reader to grasp this profound outlook on life. Like his many books on compassion, "The Middle Way" is vitally important and universally applicable. With its release, the Dalai Lama adds his wisdom teachings to the already established recognition of his incomparable compassion.

An accessibly priced, concise presentation of the Mahayana tradition of Buddhism by the Nobel Peace Prize-winning spiritual leader shares comprehensive coverage of Nagarjuna's teachings, the Buddhist view, and the practice of compassion.

" A departure at right angles to thinking in the modern Western world. An important, original work, that should get the widest possible hearing " (Iain McGilchrist, author of *The Master and his Emissary*) Middle Way Philosophy is not about compromise, but about the avoidance of dogma and the integration of conflicting assumptions. To rely on experience as our guide, we need to avoid the interpretation of experience through unnecessary dogmas. Drawing on a range of influences in Buddhist practice, Western philosophy and psychology, Middle Way Philosophy questions alike the assumptions of scientific naturalism, religious revelation and political absolutism, trying to separate what addresses experience in these doctrines from what is merely assumed. This Omnibus edition of Middle Way Philosophy includes all four of the volumes previously published separately: 1. The Path of Objectivity, 2. The Integration of Desire, 3. The Integration of Meaning, and 4. The Integration of Belief.

This book draws upon the Mahayana philosophy developed within Buddhism, employing it as a means to empty our usual alternatives for viewing the world's many religions--whether exclusivism, inclusivism, or pluralism. The aim is to free people from clinging to intellectual positions, enabling them gently but committedly to affirm their vernacular tradition as it is practiced on the ground. It critiques the above three options, and introduces the Mahayana philosophy of emptiness and dependent arising, along with its distinction between ultimate truth and conventional truth. It then applies this philosophy to an urgent question that bedevils modern people: how to practice one's chosen faith in the awareness of many other honored and attractive paths, both elegant and efficacious.

Buddhist studies is a rapidly changing field of research, constantly transforming and adapting to new scholarship. This creates a problem for instructors, both in a university setting and in monastic schools, as they try to develop a curriculum based on a body of scholarship that continually shifts in focus and expands to new areas. Teaching Buddhism establishes a dialogue between the community of instructors of Buddhism and leading scholars in the field who are updating, revising, and correcting earlier understandings of Buddhist traditions. Each chapter presents new ideas within a particular theme of Buddhist studies and explores how courses can be enhanced with these insights. Contributors in the first section focus on the typical approaches, figures, and traditions in undergraduate courses, such as the role of philosophy in Buddhism, Nagarjuna, Yogacara Buddhism, tantric traditions, and Zen Buddhism. They describe the impact of recent developments-like new studies in the cognitive sciences-on scholarship in those areas. Part Two examines how political engagement and ritual practice have shaped the tradition throughout its history. Focus then shifts to the issues facing instructors of Buddhism-dilemmas for the scholar-practitioner in the academic and monastic classroom, the tradition's possible roles in teaching feminism and diversity, and how to present the tradition in the context of a world religions course. In the final section, contributors offer stories of their own experiences teaching, paying particular attention to the ways in which American culture has impacted them. They discuss the development of courses on American Buddhism; using course material on the family and children; the history and trajectory of a Buddhist-Christian dialog; and Buddhist bioethics, environmentalism, economic development, and social justice. In synthesizing this vast and varied body of research, the contributors in this volume have provided an invaluable service to the field

Explore the Mulamadhyamakakarika the way the Dalai Lama teaches it. Nagarjuna ' s Fundamental Verses on the Middle Way, or as it ' s known in

Tibetan, Root Wisdom, is a definitive presentation of the doctrines of emptiness and dependent arising, and a foundational text of Mahayana Buddhism. In this book, Barry Kerzin, personal physician to the Dalai Lama, presents this fundamental work in a digestible way, using a method favored by His Holiness: focusing on five key chapters, presented in a specific order. First we explore the twelve links of dependent origination, in Nagarjuna's chapter 26, to learn why and how we cycle through saṃsāra. Then we examine the self that cycles to discover that, in fact, there is no inherently existent self, based on Nagarjuna's chapter 18. We then enter an analysis of the four noble truths, based on chapter 24, to understand how conventional reality is understood. Next, an investigation of the Tathagata shows the reader that even emptiness is empty in chapter 22. Finally, Nagarjuna re-emphasizes the pervasiveness of emptiness in his first chapter. Thus, Dr. Kerzin walks us through Nagarjuna's masterwork and lets the great teacher introduce us to Buddhist philosophy, step by step—deepening our understanding, enhancing the way we practice.

The French philosopher Gilles Deleuze remarked in his book *Negotiations* that things and thoughts advance or grow out from the middle, and that's where you have to get to work, that's where everything unfolds. This prompts the question, How does an artist get to work in the middle of a process that is continuously becoming? The thesis is an unfolding narrative of the authors' attempt to experientially answer the question by way of an art practice, leading to an examination of the issue of freedom—freedom from attachments and freedom to create new possibilities for all. The thesis offers a view that art practice, exploring ways to break free from the bondage of the mind, moments of freedom from oneself, is spiritual practice, is life practice.

Working in four scholarly teams focused on different global regions—North America, the European Union, the Middle East, and China—the contributors to *Religion, Secularism, and Political Belonging* examine how new political worlds intersect with locally specific articulations of religion and secularism. The chapters address many topics, including the changing relationship between Islam and politics in Tunisia after the 2010 revolution, the influence of religion on the sharp turn to the political right in Western Europe, understandings of Confucianism as a form of secularism, and the alliance between evangelical Christians and neoliberal business elites in the United States since the 1970s. This volume also provides a methodological template for how humanities scholars around the world can collaboratively engage with sweeping issues of global significance. Contributors: Markus Balkenhol, Elizabeth Bentley, Kambiz GhaneaBassiri, David N. Gibbs, Ori Goldberg, Marcia Klotz, Zeynep Kurtulus Korkman, Leerom Medovoi, Eva Midden, Mohamad Mustafa, Mouchou Poo, Shaul Setter, John Vignaux Smith, Pooyan Tamimi Arab, Ernst van den Hemel, Albert Welter, Francis Ching-Wah Yip, Raef Zreik

Let a great Tibetan scholar guide you through one of Nagarjuna's masterworks. In *Practical Ethics and Profound Emptiness* Khensur Jampa Tegchok walks us carefully through a classic of Indian Buddhist philosophy, explaining the implications of its philosophical arguments and grounding its advice in a recognizable day-to-day world. In *Precious Garland*, the source text for this commentary, Nagarjuna advises his patron king on how best to take advantage of human life to secure a happy rebirth in the next life while making progress toward the goal of enlightenment. Known primarily for his incisive presentation of emptiness, here Nagarjuna shows his wise understanding of how to navigate the intricacies of worldly life to balance everyday needs with spiritual practice. Loaded with equal measures of penetrating explanations of the highest reality and inspiring encouragement towards the bodhisattva practices, *Practical Ethics and Profound Emptiness* makes the case for living a thoughtful, morally upright life in the world to achieve immediate and ultimate spiritual goals.
